ARS ORGANIZATION AND EMPLOYEE LISTING	1

Use FTS2000 for official business calls only.

Use FTS2000 for long distance calls to reduce costs.

Avoid using FTS2000 for local phone calls.

The FTS2000 network uses 10-digit phone numbers. With a few exceptions (listed below), ARS locations have the same FTS2000 numbers as their commercial phone number.

FTS2000 CALLS - Dial the FTS2000 access code (usually "8") first, then the area code, and then the 7 digit number.

Some organizations with virtual on-net service are not directly connected to the FTS2000 network may have to dial "1".

Some organizations not directly connected to the FTS2000 network access the network by dialing an "800 number."

Contact your organization's telephone coordinator if you need help.

EXCEPTIONS

The ARS locations which do not have the same 10 digit phone number for both FTS2000 network and commercial service are listed below. Consult the locations's listing in this Directory for the correct number.
